MEMORANDUM

Re: **UPDATE to Manure Spreading Advisory #3 - 2010: South Coastal Region**

Date: May 3, 2010

The following advisory is produced by government, in partnership with industry, to provide guidance to farmers regarding the *Agricultural Waste Control Regulation* and the *ENVIRONMENTAL MANAGEMENT ACT*. If a discrepancy arises between this document and the legislation, the legislation takes precedence. Following this advisory does not relieve anyone from their obligations under the LEGISLATION. The Province of British Columbia does not guarantee the accuracy or completeness of the information referenced here from legislation, and in no event is the Province liable or responsible for damages of any kind arising out of its use.

Reminder: careful manure application is suitable on many sites. See Advisory #3 - 2010 for details.

Increasing the uniformity of manure applications is known to increase forage crop yields. Information on calibrating manure application equipment to increase this uniformity can be found here as the Factsheet titled, "Choosing and Calibrating Manure Application Equipment":

http://www.agf.gov.bc.ca/resmgmt/EnviroFarmPlanning/EFP_Nutrient_Guide/Nutrient_Guide_toc.htm

Expect the next Spreading Advisory to be released near the beginning of September or later if the summer extends longer than usual.
